HELLO,  
MY NAME IS ANTHONY AND THIS IS MY RÉSUMÉ/CV

## // ABOUT ME

I'm a Full Stack/Certified Laravel Developer from Long Island, New York. I have been programming for more than a decade, and hold a Bachelors of Science in Computer Programming and Information Systems from SUNY Farmingdale University. I specialize in large scale web applications using popular frameworks such as Laravel, as well as front-end responsive design and other popular systems. Feel free to [contact me](#) if you are looking to have work done.

## // EXPERIENCES

- Freelancer**  
2005 - Present  
I take on programming projects by request. Please e-mail me at one of the above addresses for the current hourly rate.
- Simpli Real Estate**  
2015 - Present  
**Chief Technology Officer**  
*Simpli Real Estate* is a website and mobile app that allows private buyers and private sellers to complete an entire real estate transaction 100% online without any agents or their high commission costs.
- Rothco**  
2019 - 2020  
**Senior Software Engineer**  
*Rothco* is the World's Foremost Supplier of Military, Tactical, Outdoor Clothing and Gear
- Caretraxx**  
2016 - 2019  
**Senior Software Engineer**  
*Caretraxx* is an innovative, hospital-branded solution that enables a unique engagement experience between patients and their network of healthcare providers.
- Generations Beyond**  
2011 - 2017  
**Lead Programmer**  
*Generations Beyond* is a full-scale digital marketing agency located in the heart of Long Island, New York. Producing New York City quality work at Long Island prices. Generations Beyond has been around since 1999 and produces hundreds of high quality projects a year.
- CircuitsCom Inc.**  
2013 - 2015  
**Principal Owner/Lead Programmer**  
*Circuits.com (retired)* is a search engine built with PHP 5.4 on the *Laravel Framework*. It took 9 months to build its first release, and currently has millions of parts in its database totaling over 3 billion in stock. *Circuits.com* aims to be the world's premiere circuit search.

## // WEB APPLICATIONS

(There are many more recent/in-between applications that I can not show due to agreements.)

- 2015 - Pres.**  
**Generations Beyond Internal CRM Software Version 3 (Gallery)**  
*Generations Beyond* is a full-scale, all encompassing digital marketing agency with a lot of demands. It was up to me to build a massive backend system to run the entire company from print media to massive backend architecture projects. From clients & tasks, to managing social media and SEO accounts, to billing and bookkeeping. Dubbed GB.net, this third version of their CRM software took about 8 months to build & runs on the *Laravel Framework*.
- 2014**  
**Generations Beyond Internal CRM Software Version 2 (Gallery)**  
*Generations Beyond* is a full-scale, all encompassing digital marketing agency with a lot of demands. It was up to me to build a massive backend system to run the entire company from print media to massive backend architecture projects. From clients & tasks, to managing social media and SEO accounts, to billing and bookkeeping. Dubbed GB.net, this CRM software took over a year to build & runs on the *Laravel Framework*.
- 2014**  
**Circuits.com**  
*Circuits.com* is a search engine built with PHP on the *Laravel Framework*. It took 9 months to build its first release, and currently has millions of parts in its database totaling over 3 billion in stock. *Circuits.com* aims to be the world's premiere circuit search.
- 2012**  
**My Medical CV**  
With My Medical CV, it is easy for anyone in the health-care field to upload, store, and share his or her credentials.
- 2011**  
**Generations Beyond Internal CRM Software Version 1 (Gallery)**  
The predecessor to the current Version 2, *GB.net* Version 1 was a very powerful system built on the *CodeIgniter Framework*. It handled all of the companies needs at the time, but as times changed & the company demanded more features. Version 1 was retired and its more powerful, full-featured brother Version 2 was born using the *Laravel Framework*.

## // OPEN SOURCE PROJECTS

- 2020 - Pres.**  
**Laravel Livewire Tables**  
A dynamic table component for Laravel Livewire
- 2020 - Pres.**  
**Laravel Lockout**  
Put your Laravel application into read-only mode.
- 2015 - Pres.**  
**Laravel Boilerplate (Top PHP Projects of All Time on GitHub)**  
A boilerplate project that sets up a default Laravel installation with many useful plugins and methods usually implemented with new large scale projects.
- 2015 - Pres.**  
**Laravel Helpers**  
This project takes the useful Laravel helper functions and allows you to use them in Non-Laravel projects.
- 2015**  
**Vault (Retired)**  
Vault is a simple yet powerful access control system for the new Laravel 5 Framework. It comes with a backend user interface to manage users, roles, and permissions as well as the relationships between them.

## // IOS APPS

- 2015 - Pres.**  
**NY EMS Protocols**  
This app contains the EMS Protocols for New York State, both BLS & ALS, in the jurisdictions of Nassau County, Suffolk County, and NYC. It is a replacement/combination of some of the below apps.
- 2013**  
**ALS Protocols**  
This app contains the Advanced Life Support Protocols for Emergency Medical Providers for Suffolk County, New York, as well as the Basic Life Support Protocols for Emergency Medical Providers in the State of New York.
- 2013**  
**Pocket Protocols**  
This app contains the Basic Life Support Protocols for Emergency Medical Providers in the State of New York.
- 2013**  
**My Medical CV**  
The MyMedicalCV app allows medical providers to store, organize, and keep all of their credentials safe.
- 2012**  
**NYC Paramedic Protocols**  
These are NYC REMSCO Protocols for the Paramedic Provider.
- 2011**  
**I Got A Guy**  
When your friends need to find a plumber, electrician, painter or landscaper, are you the one they come to for a referral? Or maybe you have a hard time finding people that you can really depend on to get a job done, and you're sick of wading through a stream of recommendations from the internet.

- Central Islip - Hauppauge Volunteer Ambulance
- Past: Islip Ambulance Chiefs Association

## // TESTIMONIALS

"Anthony is a problem solver when it comes to software development. He is able to develop easy to use business solutions and work on a team."  
- James Alt

"Very knowledgeable, friendly and professional and has good ability to understand the business problems we're trying to solve."  
- Scott Moser

"Finding a qualified and reliable development resource to build out highly conceptualized designs is often a difficult task. Finding a developer that meets the standards of what you're visually looking for while also providing quality code is a stressful and time consuming process. Working with Anthony the past few years has eased these concerns and allowed me to focus my time back on effectively managing a business. In addition to the quality of his work, Anthony is highly responsive, efficient and always professional to deal with. It's been a great business relationship that I look forward to continuing."  
- Jeff Brandi

"I had the pleasure of working with Anthony Rappa (Rappasoft) on a project that I needed his help and expertise with. I just wanted to say that Anthony is a true professional and is very skilled in what he does. He was very accommodating when it came to what was requested and what needed to be done. Communication back and forth was timely and his work was spot on. He was not happy unless I was happy, so would finish what needed to be done, before he considered his work to be complete. I would not hesitate in recommending Anthony to anyone and I look forward to the next time I work with him."  
- Iain Munro
